henny penny (rust version)

Offering fabric kits to your customers, is a great way to work through your shop's inventory but also offers a wonderful convenience for quilters.

This is the fabric cutting guide for the "Henny Penny" pattern (A1066) rust version. Pictured below are images of the actual fabrics along with the corresponding pattern numbers where each fabric was used, followed by the cut fabric size for one kit and instructions for cutting 12 kits. A large picture of "Henny Penny" in on page one to help in making fabric choices. The last page is for you to cut into quarters and include with each of the fabric kits as a guide. **Quilt finishes to 20" x 17"**.

I found selecting fabrics with a lot of texture or pattern (geometric, realistic or abstract) worked best for "Henny Penny". Most hens have a lighter colored head and are darker toward the tail.

Every effort has been made to ensure the accuracy of the measurements but no guarantee has been made. If you find an error please let me know so I can correct this document. Please feel free to contact me with any questions or concerns.

Happy Cutting!

Nancy

TOTAL YARDAGE CUT FOR EACH KIT: 1 1/4 YARDS

pattern no.

1 kit

12 kits

A

10" x 14"

cut 4 strips 10" x width of fabric, subcut into 10" x 14"
